

AVISHKA RUWANTHI

Undergraduate

About Me

I am an ambitious and diligent undergraduate seeking an internship in the IT field. With keen determination and a strong work ethic, I am passionate about learning new technologies and applying innovative solutions to real-world problems. My experiences in university projects, both individual and group, have honed my problem-solving abilities and collaborative spirit. I thrive on conducting thorough research to enhance my understanding and skills, and I am eager to contribute to a dynamic team where I can grow both personally and professionally.
